

## Vibratory Hammer SV325-2

SPECIFICATION	SV325-2
Eccentric Moment	30 kgm
Rated Centrifugal Force	1067 kN
Maximum Frequency	1800 rpm
Maximum Extraction Force	961 kN
Clamp Pressure	330 bar
Weight with Dual Clamps	6250 kg
Casing Diameter	350–1800 mm

## 400P Hydraulic Powerpack

SPECIFICATION	400PP
Engine	Cummins QSM11
Hydraulic Power	298 kW
Rated Working Pressure	300 bar
Maximum Hydraulic Flow Rate	546 L/min
Weight	6200 kg

These features are model dependant and subject to continuous improvements.

- **Rexroth Hydraulic Pumps and Solenoids**

All powerpacks are fitted with Rexroth hydraulic pumps and Solenoids as standard production.

- **Parts commonality**

All parts including hydraulic pumps and motors are easily available in the market.

- **Digital Pressure Reading at Remote Control Pendant**

Digital pressure reading at remote control pendant for easy observation during operation.

- **Oversized coolers**

To cater for hot climatic and difficult working conditions.

- **Environmental Friendly**

Noise reduction structural frames and panels for sound proofing effects.

- **Stackable Frame**

Concealed exhaust silencer and container blocks at 8 corners enable stacking of powerpacks. Container blocks also double up as lifting eyes.

- **Hydraulic Tank with Internal Sediment Tank**

Segregated internal sediments tank for filtering of foreign particles in the hydraulic tank.

- **External Fuel Tank and Hydraulic Tank Inspection Allocations**

Allocations for external inspections are incorporated at fuel and hydraulic tank for ease of maintenance.

- **Stainless steel latches and hinges**

Stainless steel panels latches and hinges for long lasting and weather resistant.

All technical data are indicative and subject to change without notice.

The factory is located in Asia to take advantage manufacturing costs and is geographically closer to Australia to reduce shipping costs and times. All main components are manufactured by third party globally recognised vendors that allow for local supply to reduce down times in the field.
